# The Brain Hurting Questions

- What properties of the universe could be known through you?
- What properties of things could be known through you?
- What properties of science could be known through you?
- What properties of philosophy could be known through you?
- What properties of knowledge could be known through you?
- What properties of intelligence could be known through you?
- What properties of men could be known through you?
- What properties of women could be known through you?
- What properties of families could be known through you?
- What properties of societies could be known through you?
- What properties of communities could be known through you?
- What properties of ideas could be known through you?
- What properties of plans could be known through you?
- What properties of desires could be known through you?
- What properties of dreams could be known through you?
- What properties of predictions could be known through you?

Divisibility, comparability, connectivity, disturbability, reorderability, substitutability and satisfiability are the properties of things which could be known through you…

# The Brain Hurting Questions

- What properties of expectations could be known through you?
- What properties of love could be known through you?
- What properties of criminals could be known through you?
- What properties of crime could be known through you?
- What properties of justice could be known through you?
- What properties of politics could be known through you?
- What properties of plants could be known through you?
- What properties of animals could be known through you?
- What properties of dogs could be known through you?
- What properties of cats could be known through you?
- What properties of rats could be known through you?
- What properties of fishes could be known through you?
- What properties of genes could be known through you?
- What properties of monkeys could be known through you?
- What properties of cows could be known through you?
- What properties of points could be known through you?

Divisibility, comparability, connectivity, disturbability, reorderability, substitutability and satisfiability are the properties of things which could be known through you…

# The Brain Hurting Questions

- What properties of lines could be known through you?
- What properties of circles could be known through you?
- What properties of squares could be known through you?
- What properties of logic could be known through you?
- What properties of concepts could be known through you?
- What properties of religions could be known through you?
- What properties of faiths could be known through you?
- What properties of beliefs could be known through you?
- What properties of teachings could be known through you?
- What properties of lessons could be known through you?
- What properties of education could be known through you?
- What properties of institutions could be known through you?
- What properties of communications could be known through you?
- What properties of languages could be known through you?
- What properties of changes could be known through you?
- What properties of processes could be known through you?

Divisibility, comparability, connectivity, disturbability, reorderability, substitutability and satisfiability are the properties of things which could be known through you…

# The Brain Hurting Questions

- What properties of events could be known through you?
- What properties of sex could be known through you?
- What properties of DNA could be known through you?
- What properties of poems could be known through you?
- What properties of questions could be known through you?
- What properties of answers could be known through you?
- What properties of Sun could be known through you?
- What properties of Moon could be known through you?
- What properties of Jupiter could be known through you?
- What properties of a system could be known through you?
- What properties of the atoms could be known through you?
- What properties of the molecules could be known through you?
- What properties of the reactions could be known through you?
- What properties of the reactants could be known through you?
- What properties of the energies could be known through you?
- What properties of the forces could be known through you?

Divisibility, comparability, connectivity, disturbability, reorderability, substitutability and satisfiability are the properties of things which could be known through you…

# The Brain Hurting Questions

- What properties of politics could be known through you?
- What properties of the mountains could be known through you?
- What properties of the rivers could be known through you?
- What properties of the deserts could be known through you?
- What properties of love could be known through you?
- What properties of the organs could be known through you?
- What properties of the microorganisms could be known through you?
- What properties of the books could be known through you?
- What properties of knowledge could be known through you?
- What properties of equilibrium could be known through you?
- What properties of the measurements could be known through you?

**Divisibility:** the property of being able to be divided

**Comparability:** the property of being able to be compared

**Connectivity:** the property of being able to be connected

**Disturbability:** the property of being able to be disturbed

**Reorderability:** the property of being able to be reordered

**Substitutability:** the property of being able to be substituted

**Satisfiability:** the property of being able to be satisfied

Divisibility, comparability, connectivity, disturbability, reorderability, substitutability and satisfiability are the properties of things which could be known through you…
